OBJECTIVE

A dynamic professional offering around 4 years of total experience with key focus on Collection of requirements, detailed design, implementation, development. Good understanding in JavaScript (ES6), and frameworks like Vue, Nuxt, Vue 3, Typescript and Tailwind CSS. Experienced in developing Web Applications. Ensure to write and guide teammates to have reusable code and components. Collaborate with other software developers, testers (QA), business analyst's, to develop, test and maintain web applications. Conduct code optimization and efficiency improvements. Ensure application usability and accessibility standards are met. Excellent interpersonal, analytical, and troubleshooting skills with ability to synthesize complex information and communicate technical issues.

EXPERIENCE

Software Engineer, Bacancy Services Pvt. Ltd. | SEP 2024 – MAR 2026

- Built a Vue.js 3 & TypeScript platform enabling phone retailers to quickly create and customize mobile e-commerce websites with dynamic product, service, and review features.
- Contributed to a Vue.js 3 video storytelling platform by building reusable, component-based UI and improving overall frontend performance.
- Integrated the Creatomate plugin into a Vue 3 storytelling application to enable automated video generation and dynamic media rendering.
- Collaborated with clients to gather functional and non-functional requirements and translate business needs into clear UI/UX specifications.
- Designed scalable, performance-focused user interfaces using Vue 3, leveraging efficient state management and optimized REST API integrations to ensure smooth user experiences.

Software Developer, Mantra Technologies Pvt. Ltd | APR 2022 – SEP 2024

- Worked on CRM.io, a customer relationship management platform that streamlines customer interactions through contact management, lead tracking, and sales pipeline management, while driving sales growth via marketing automation and integration capabilities using Vue.js 2 and JavaScript.
- Contributed to the development and implementation of multiple plugins using Nuxt 3, Vue.js 3, TypeScript, and Tailwind CSS, playing a key role in the creation of two web applications. All plugins are configurable using respective JSON files.

Notable contributions include:

- **frontend-plugin-crud-basic:** Collaborated on a versatile CRUD operations plugin to enhance user interaction and data management.
- **frontend-plugin-form:** Actively involved in building a dynamic form plugin with JSON-configurable fields and Tailwind CSS styling for a user-friendly interface.
- **frontend-plugin-dashboard:** Contributed to a dashboard plugin supporting multiple graph types with JSON-configurable chart options for data visualization.
- Worked on a No-Code App Builder that enables users to create custom applications by selecting modules from categories such as Sales, Productivity, Human Resources, and Marketing. The platform offers a wide range of micro-apps, allowing users to manage customer relationships, enhance productivity, streamline HR operations, and execute marketing campaigns without writing code.

PERSONAL PROJECTS

DevToolKit – (<https://dev-tool-kit-app.vercel.app>) – (In Progress)

Developing a web application using Vue.js, Nuxt.js, TypeScript, and Tailwind CSS to consolidate essential developer tools in a single, user-friendly platform. Includes utilities for regex testing, API testing, data conversion, JSON formatting, JWT decoding, and more, aimed at improving productivity for developers.

SKILLS AND TOOLS

Skills

- HTML, CSS, Bootstrap, and Tailwind CSS
- JavaScript and TypeScript
- Vue JS and Nuxt JS
- Pinia

Tools

- Git, GitHub, GitLab
- Postman
- Figma
- Notion, Projectsly, Slack

AI Tools

- GitHub Copilot
- ChatGPT
- Claude
- Gemini
- Bolt.new
- Replit
- Same.new
- Lovable

EDUCATION

GVR&S College of Engineering and Technology
Bachelor of Technology in Civil Engineering

Budampadu, AP
2018-2021

AWARDS

- Received Spot Award for delivering consistent, high-quality performance and maintaining a positive attitude. Recognized for reliably completing assigned tasks and demonstrating a strong understanding of client requirements, resulting in excellent client feedback.
- Won 1st Prize for the Best Model Making Project of the Clover Leaf Interchange at the diploma level in college.
